PROGRAMME HEAD

ORGANISATIONAL PSYCHOLOGY

With over 38+ years of experience in the corporate world, working in various leadership roles, Dipak Bishnoi is the Program Head for Organisational Psychology. Dipak has the experience of building and leading large teams of professionals across multiple geographies, giving him deep understanding of how people and organisations truly operate.

Dipak is committed to helping professionals discover the human dynamics that shape workplace culture, performance, and growth. Guided by his belief that people always carry within them the resources they need to succeed, he brings a coaching sensibility to every session — equipping HR managers, team leaders, and individual contributors alike with the insight and tools to make a meaningful impact in their organisations.

ABOUT US

JEPPIAAR ACADEMY OF PSYCHOLOGY AND RESEARCH

Established to bridge the gap between academic psychology and real-world organisational application, Jeppiaar Academy of Psychology & Research offers specialised programmes aligned with global mental health and behavioural science standards.

The Academy delivers advanced diploma programmes across key domains including Counselling & Organisational Psychology, Child Psychology, Forensic Psychology, and Art Therapy — combining strong theoretical foundations with practical, real-world application.

Our corporate programmes extend this expertise into organisations, equipping professionals with psychological tools to improve leadership effectiveness, enhance workplace relationships, and build high-performance cultures.

CONTEMPORARY CHALLENGES OF ORGANISATIONS

In the present scenario corporate training focuses mostly on technical aspects. However there is a lacuna in the training programs offered on the behavioural and psychological domain.

The Programme is specifically curated for Corporates, equipping HR leaders, managers, and individual contributors with the psychological tools to understand human behaviour.

**POOR

**INSPECTIVE
LEADERSHIP**

Research consistently shows that 70–80% of leadership failures are rooted in behavioural and interpersonal issues — not technical incompetence.

PROGRAMME STRUCTURE

TWO TRACKS. ONE INTEGRATED LEARNING JOURNEY

The programme follows a two-track learning model. Participants begin with a 20-hour Applied Psychology Foundation (Track 1) and then move into a role-specific Track 2 pathway. The programme is delivered in a hybrid format through live online and in-person sessions over 45–60 days.

TRACK	SESSIONS	HOURS	MODE
Track 1 Applied Psychology Foundation	20 * 1 Hour	20 Hours	Online + Live
Track 2A HR Leadership	10 * 1 Hour	10 Hours	In Person - On Location
Track 2B Managers	10 * 1 Hour	10 Hours	In Person - On Location
Track 2C Individual Contributors	10 * 1 Hour	10 Hours	In Person - On Location

TRACK - 1

APPLIED PSYCHOLOGY FOUNDATION

Through 20 focused one-hour online sessions, participants build a shared understanding of the psychological principles that shape human behaviour in the workplace.

This shared experience creates a common language across the organisation, enabling more productive conversations about behaviour, culture, motivation, and performance. Track 1 is the conceptual backbone that makes Track 2 immediately applicable.
